

GRAPHITE-LINED PERFINS

by Reg Powell

In October. 1983 issue of The Perfins Bulletin. Mr. Bob Schwerdt who is The Perfins Club Co-Ordinator for the perfins regarded as Foreign by the United States of America, drew attention to the scarcity of perfins on the Graphite-lined issues of G.B. In his over 25,000 G.B. perfins he has only three on three different values. NC (51.5) on SG 562, T & S (404.3) on SG 566 and SW/GB (812.1) on SG 593.

Moved by this note, I found that I had six on four graphite-lined stamps of differing values:- W.S./M (702) on SG 563. CK (411.1) and FRY (358.1) on SG 589, V & S. (668.5) on SG 593 and C/W/S diagonally (853.1) and BN/& H (515.1) on SG 591.

The Editor would welcome similar returns from other members, with details of postmarks, if these are evident.
